The Nissan 300zx EFI/EGL wiring harness is the harness that connects to your ECU and receives signals from all the sensors and connectors on the engine. Over time the connectors get brittle and break causing bad idle and poor performance. It is strongly recommended to replace this harness anytime the engine is out of the car. **Some of the harness's are no longer available:**

The Nissan 300ZX is a sports car in the Nissan Z-car family that was produced across two similar but unique generations. As with all other versions of the Z, the 300ZX was sold within the Japanese domestic market under the name Fairlady Z.. It was sold in Japan from 1983 to 2001 and in the United States from 1984 to 1996, the 300ZX name followed the numerical convention initiated with the ...
