Acura TI Transmission Fluid Change

Acura has been developed sophisticated transmissions through years and it is critical that you add the exact type of transmission fluid stipulated by your owner's manual (typically in the back of the manual in a section titled Fluid Capacities.) When adding transmission fluid to your TL, be sure to add it slowly as the transmission fluid capacity is reached quickly and it is difficult to remove excess fluid if you overfill.

Add Transmission Fluid: 1999-2003 Acura TL - 2002 Acura TL ...

For the most part, it'll take a Acura service center about an hour to refill your transmission's fluid - and maybe a little longer if they're flushing out all the old fluid and any residue ...

2010 Acura TL Transmission Fluid Change Prices & Cost ...

If you regularly drive your vehicle under these conditions, have the transmission fluid changed at 60,000 miles (100,000 km), then every 30,000 miles (48,000 km). (For A/T only.) Independent of the Maintenance Minder information, replace the brake fluid every 3 years. Inspect idle speed every 160,000 miles (256,000 km).

Acura Maintenance Schedules | Acura Owners Site

The average cost for an Acura TL transmission fluid change is between \$111 and \$128. Labor costs are estimated between \$65 and \$82 while parts are priced at \$46. Estimate does not include taxes and fees. Note about price: The cost of this service or repair can vary by location, your vehicle's make and model, and even your engine type.

Acura TL Transmission Fluid Change Cost Estimate

Use a funnel to slowly add the transmission fluid into the dipstick tube. Periodically check the level on the dipstick and continue to add until the fluid level reaches the required level. Approximately 1 pt. of transmission fluid will raise the fluid level one notch level. Start the engine and shift into each of the available positions.

How to Add Transmission Fluid to a Acura TI Transmission ...

Not all the transmission fluid can be changed at once. Two-thirds of the transmission fluid is trapped in the torque converter, so changing the fluid is a three-part process. Park the Acura on a flat, level surface and apply the parking brake. Place a drain pan under the transmission drain plug.
