An Introduction To Discourse Analysis

Discourse analysis considers how language, both spoken and written, enacts social and cultural perspectives and identities. Assuming no prior knowledge of linguistics, An Introduction to Discourse Analysis examines the field and presents James Paul Gee's unique integrated approach which incorporates both a theory of language-in-use and a method of research.

He's the best in introducing discourse analysis. Johnstone is good, but not as organized as Coulthard. He divides the possible analysis from conversational analysis, etnography of speaking, stylistics, and even language teaching. He even makes me realize that tones and paralinguistic elements are also important for discourse analysis.
