The Cessna 337 Skymaster, arguably the most commercially successful push-pull attempt, at least in terms of numbers built. And although the 337 Skymaster isn't the most popular twin ever marketed, it's done all right for itself and has achieved its primary goal: eliminating asymmetric thrust and simplifying the pilot's workload in the event of an engine out.

Cessna Skymaster - AVweb

The Cessna T303 Crusader is an American light twin aircraft developed by Cessna. It is noted for being spacious and comfortable for an aircraft of its type while remaining a very cost-effective aircraft. Will comfortably transport 5 passengers for flights of up to 3 hours.
