Feenstra and Taylor's text anchors theoretical coverage to empirical evidence throughout, while reflecting the realities of the global economy by covering emerging markets and developing countries (India, China, Southeast Asia). The new edition has been thoroughly updated, including the latest on the Eurozone crisis.

International Economics Second Edition - amazon.com

Economics is the UK and European adaptation of Greg Mankiw's classic textbook 'Principles of economics', expertly adapted by Mark Taylor. The authors present economics from the viewpoint of a reader completely new to the subject. The book appeals to the more applied, business-oriented courses. The conversational yet precise writing style is superb for presenting the politics and science of ...
