Duratec is a brand name of the Ford Motor Company used for the company's range of gasoline -powered four-cylinder, five-cylinder and six-cylinder passenger car engines. The original 1993 Duratec V6 engine was designed by Ford and Porsche. Ford first introduced this engine in the Ford Mondeo.

Ford Duratec engine - Wikipedia
The Ford Duratec V6, also known as the Mondeo V6, is an aluminum DOHC V6 engine with a 60° bank angle introduced in 1993 with the Ford Mondeo. The primary engineering input came from Porsche, who was developing a similar V6 before selling the engineering to Ford, and Cosworth, who helped with cylinder head manufacturing.

The I4 Duratec is our latest Ford engine, currently installed in the Mondeo, Focus and ST Fiesta. It is available in 1.8 2.0 2.3 and our latest 2.5 version Unlike the Zetec, it is not a direct replacement for existing older Ford installations. However, items are available that allow the engine to be installed in a wide variety of chassis.
