Mentalization - Literature - Center for Mentalization

Abstract. Minding the Baby, an interdisciplinary, relationship based home visiting program, was initiated to help young, at-risk new mothers keep their babies (and themselves) "in mind" in a variety of ways. The intervention--delivered by a team that includes a nurse practitioner and clinical social worker--uses a mentalization based approach; that is, we work with mothers and babies in a variety of ways to develop mothers' reflective capacities.
