Penguin Dictionary Mathematics Reference Books

This book serves best as the quick reference to mathematics in general. I learned a lot about mathmatics a long time ago but I've forgotten almost all. When I browse thru this math dictionary,I feel like coming anywhere closer to recollection of what I had learned about math.

The Penguin dictionary of mathematics (eBook, 2003 ...

McGraw Hill's Dictionary of Mathematics contains 5,000+ definitions. Since it is about the same number of pages as the Penguin one, and the Penguin one contains fewer words per page, I'd say the McGraw Hill is much more comprehensive. McGraw Hill's has a lot on "polar": And "stereographic projection":
