SANS SEC504 (GCIH) Review. There was one problem with this class...I didn't want it to end. 6 days long and two months of supplemental studying only whet my appetite for what SANS has to offer. SANS SEC504 (GCIH) was the perfect sequel to the SANS SEC401 (GSEC) course I took over a year ago. In similar fashion you cover one book per day, but the books are only "yay" thick (a welcome reduction compared to 401):

When I was doing work study, a number of people stated that they wanted the books in PDF form on their evals. I don't remember which SANS staff member told me, maybe it was Katherine, that SANS will never distribute them digitally (via PDF or PPT) because it was one of the many ways they controlled how their intellectual property didn't end up on every torrent site and internal company share.

### Topic Tag: 504 | WordPress.org

It's no secret that I'm a fan of SANS and their associated GIAC infosec certifications. Certifications aren't worth a ton of credibility in the information security arena, but the SANS training and testing mechanisms really do ensure that students have to have some clue about the topic to pass. The courses aren't cheap, but SANS...
