Stories of The Nature of Cities 2099 - Prize for urban ...

Bringing nature into cities is hardly a new idea. In fact, it has swung in and out of vogue for more than a century, ever since Victorian social reformer Ebenezer Howard published what became the Garden Cities of To-morrow manifesto in 1898. Prompted by the squalid, polluted and dangerous environment faced by Victorian city dwellers and their ...

The Nature of Cities | Johns Hopkins University Press Books

World cities are a product of economic and cultural globalisation. The transnational forces that drive the global economy also concentrate power within certain cities. Furthermore, the cultural homogenisation that is associated with globalisation creates cities with tightly linked networks or people, transport, ideas and capital.
