Information Security Forms

The highest security classification. "Top Secret shall be applied to information, the unauthorized disclosure of which reasonably could be expected to cause "exceptionally grave damage" to the national security that the original classification authority is able to identify or describe." It is believed that 1.4 million Americans have top secret clearances.

A double forward slash separates the classification level and control markings. Here is an example, and just for demonstration purposes, suppose you have a document classified at the TOP SECRET level and it has HUMINT Control System, SI, and TK, it would like so, TOP SECRET//HUMINT/SI/TK. The portion marking would be (TS//HCS/SI/TK).

How is Sensitive Compartmented Information (SCI) Marked ...

Sensitive compartmented information (SCI) is a type of United States classified information concerning or derived from sensitive intelligence sources, methods, or analytical processes. All SCI must be handled within formal access control systems established by the Director of National Intelligence. Although some sources refer to SCI control systems as special access programs, the intelligence ...
