Is China's Economic Collapse Good For the U.S.?

“China will continue to be a major economic force but will not be the dynamic engine of global growth it once was,” the report reads. Instead a new group of 16 nations which includes most of South-East Asia, East Africa and part of Latin America will emerge in China’s place as an economic powerhouse.

The world in 2025: China loses power, Russia ‘won’t exist’

The fate of China will affect everyone. Its economy is now so large and intertwined with western economies that a growth stutter, or worse, a collapse, would have very serious global consequences. China's great economic machine has political consequences too, creating power instabilities around its borders and farther afield.
